Seltmann
Weiden

OVER 250 YEARS OF EXPERIENCE
in porcelain

CONSTANT INNOVATION
modern forms & elegant designs

FULL CUSTOMISATION
in house

DEEP TECHNOLOGICAL KNOW-HOW
one of Europe's most high-tech manufactories

From raw materials extraction to
development to production
we have 100 % autonomy
and independence!

20 GOOD REASONS to buy Seltmann Weiden Porcelain

1. SELTMANN WEIDEN porcelain is lead-and cadmium- free.
2. The body of Seltmann Weiden porcelain is made from the following raw-materials: Caolin (50%), Quartz (25%) and Feldspar (25%).
3. Seltmann Weiden porcelain is fired with eco-friendly natural gas. Every piece of white porcelain has to pass two firings. The high firing temperature, the highest one for ceramic products, in conjunction with the raw materials, gives our product its extreme hardness and durability.
4. The glaze of Seltmann Weiden porcelain is extremely hard. In practice, this means that neither knives nor other cutlery are able to scratch or otherwise damage the glaze of the porcelain.
5. Other ceramic products like, Bone china, Fine China or Vitreous China, attain a lower level of hardness than Seltmann Weiden porcelain. This means they are more fragile than our porcelain.
6. The hardness of the body and the glaze makes Seltmann Weiden porcelain extremely durable and suitable for daily use in hotels and restaurants. It is highly resistant against breakage and chipping.
7. Due to reasons relating to production and technology the feet of hard porcelain products remain unglazed. At Seltmann Weiden they are polished with diamonds. This ensures the optimal protection of sensitive surfaces.
8. The properly polished feet of porcelain articles cannot abrade any metal from metal surfaces like metal tables of shelves, and cannot transfer metal traces to the glaze of a plate on which it is stacked.
9. Properly polished feet have another advantage: the plates don't wobble or spin on tables.
10. The surface of the center of the plates is absolutely level, there is no heightening or deepening on the center. That means, gravy stays where it is supposed to stay and doesn't run to the middle or outside of the centre.
11. Seltmann Weiden porcelain is an excellent heat-storing material. In order to support this particular feature, the bodies of the center of the plates are thicker than the rims.
12. Seltmann Weiden porcelain is fully vitrified porcelain which is an absolute dense. That means that it doesn't absorb any liquid even through unglazed parts like the feet – a crucial factor for hygiene.
13. The extremely smooth glazed surface of the porcelain does not leave any openings to leftovers or harmful germs.
14. Seltmann Weiden porcelain is 100% dishwasher-safe, no matter if it is decorated or undecorated. Even gold decorations are 100% dishwasher safe.
15. Seltmann Weiden porcelain is 100% microwave proof. The only exceptions are decorated items which contain metals such as gold or platinum.
16. Seltmann Weiden porcelain can stand extremely high temperatures without any damage. Therefore, it can be used in conventional ovens as well as in salamanders, for soufflés and au gratin.
17. The measurements of Seltmann Weiden porcelain articles will always stay constant, even if the production is made in different years.
18. Due to the exclusive production in our plants in Germany we are very flexible and can fulfill the wishes and needs of our customers very quickly. Short-term delivery is no problem.
19. Since its foundation, Seltmann Weiden has been 100% family owned. Every generation of the Seltmann family has taken pride in the extremely high quality Seltmann Weiden porcelain. Constant investments in state-of-the-art production technologies guarantee that, now and in the future, the name Seltmann Weiden porcelain is synonymous with the highest quality.
20. Seltmann Weiden porcelain is a true 100% Made-in-Germany product of excellent quality. To prove, every article is back stamped with "Made-in-Germany".

SELTMANN EDGE-CHIP WARRANTY

PRODUCTS COVERED: The Seltmann Edge-Chip Warranty is valid for all round and oval plates, bowls, saucers and platters that have a rolled edge..

COVER DETAILS: The products covered will be replaced if their edges chip during the period of cover and only when the products have been used under ormal food service conditions comprising proper refrigeration, serving, washing and storage. The warranty applies also when the products are used in an oven but not including pizza ovens. The warranty does not extend to other types of breakages and the validity of the claim is at the solediscretion of Seltmann Weiden.

PERIOD OF COVER: Products are covered for three years from the date of invoice of the original order.

CLAIMS: Any claim should be returned by the customer toyour dealer / distributor for inspection at the customer's own cost. A copy of the purchase receipt has to be provided, along with information about the chip and the location where the product was used. When required, Seltmann Weiden or our authorised dealers must be able to inspect the location to ascertain the reason for chipping. Claims are only valid when made by the original customer at the original location indicated on the purchase order.

The following collections are with rolled edges:
Coffee-E-Motion, Compact, Coup Fine Dining, Diamant,Imperial, Laguna, Lukullus, Luxor, Mainau, Mandarin,Marienbad, Maxim, Meran, Salzburg, Savoy, Vitalis.

Straight, timeless and functional – these are the characteristics that our new porcelain series **GOOD MOOD** should combine.

This porcelain series represents an excellent handling and in addition it functions perfectly for the right presentation of food.

GOOD MOOD represents a healthy diet as well as good spirits, a great atmosphere and healthy food.

Serving Essentials

Serving pieces crafted to enhance both ***function*** and **visual** appeal.

In the high-stakes world of Horeca, the transition from a meal to an experience lies in the details. Our curated collection of serving accessories—crafted from premium metal, marble, and cast iron—is designed specifically for professionals who refuse to choose between aesthetic brilliance and rugged durability.

These pieces are more than just tools; they are a game changer in table presentation, providing the perfect canvas for culinary creativity. Whether it's the cool elegance of marble or the industrial strength of cast iron, our range brings a sophisticated edge to any setting.

MOQ : 1 | : 4

For proper maintenance of cast-iron products over time you are advised to remove the stuck-on food and hand wash with dishwashing liquid. Avoid using sharp tools, harsh chemicals or steel brush. Stubborn food residue may also be loosed be boiling water in the pan. Thoroughly dry when clean and apply a layer of olive oil after every use for proper maintenance of the finish and extending the lifetime of the product.

MOQ : 1 | : 6 Capacity:300

The Volcano line is an upgraded version of cast-iron products, featuring a durable exterior coating fired twice and an inner enamel lining.
The inner enamel makes the product rust-proof.
It is suitable for all types of cooktops and ovens up to 220°C. Apply food-grade oil to the rim before use and after cleaning to protect the surface.

VOLCANO CAST-IRON/ENAMEL PANS FOR INDUCTION

Every casserole includes both Gold and Silver knobs for a custom finish.

Marble is a natural stone with no synthetic coatings, making it safe for contact with food. It stays cooler than room temperature, which makes it perfect for cheese/deli meats, pastries and cold appetizers.
Care Instructions: Product surface is polished to minimize absorbency, however marble is a porous material, so it can absorb liquids, therefore wipe immediately in case of spills from wine/coffee etc.
Hand wash only with warm water and mild dish soap, use a soft sponge or cloth, dry immediately with a towel to prevent water spots. Avoid contact with acidic, oily, or salty foods. Do not cut directly on the surface, and remove food promptly after use. Store with felt pads or cloth between stacked pieces.

SERVING WÖOD

Table Presentation &
Serving Accessories

3

Organic Warmth

Durable by nature and gentle to the environment.
A collection that adds **organic** beauty to the professional table.

Bring the warmth of nature directly to the table with our exclusive wooden serveware collection. Crafted for those who appreciate an organic aesthetic, each piece is thoughtfully designed to elevate your culinary presentations.
We believe that beautiful design shouldn't compromise our planet, which is why every board is created using eco-friendly materials and sustainable sourcing.
Lightweight enough for effortless service yet incredibly durable, this collection is built for daily use.

Mango is an Eco-Friendly and sustainable wood and it is harvested only after trees stop bearing fruit, making it an environmentally responsible choice.
Lightweight and yet Strong, mango is a hard, dense wood that resists cracking and wear when properly cared for great for everyday serving use.
Each piece has unique grain patterns and warm tones, adding a handcrafted touch to professional table settings.
Treated with food-grade oils, mango wood is safe for serving dry and semi-dry foods and at the same time repels moisture.
Care instructions:
Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly-do not soak, wipe dry immediately with a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

Hand Wash | Stackable | Professional | Food Safe

Acacia is a dense hardwood, making it more resistant to scratches, dents, and cracking compared to softer woods. It has natural oils that repel moisture.
Great for everyday food use. Rich golden to dark warm tones with striking grain patterns. Each piece looks unique. It grows quickly and is sustainably sourced, making it a more environmentally responsible hardwood.
Care instructions: Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly-do not soak, wipe dry immediately with a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

Service Stations

Crafted to **support** high-volume service with clarity and **efficiency.**

Elevate your guests' experience with our meticulously designed buffet collection. Featuring a wide variety of multipurpose pieces, this collection empowers you to curate visually stunning and highly functional buffet arrangements.
Crafted from a diverse range of premium materials, every item is designed to seamlessly mix and match across variations in size and volume, allowing you to build a unique presentation perfectly aligned with your aesthetic vision. Beyond striking design, we prioritize simple, safe handling and uncompromising quality -all at highly competitive prices. With guaranteed stock and swift 24-48 hour delivery, bringing your ideal buffet setup to life has never been easier.

Hand Wash | Handmade | Professional | Food Safe

Mango is an Eco-Friendly and sustainable wood and it is harvested only after trees stop bearing fruit, making it an environmentally responsible choice.
Lightweight and yet Strong, mango is a hard, dense wood that resists cracking and wear when properly cared for great for everyday serving use.
Each piece has unique grain patterns and warm tones, adding a handcrafted touch to professional table settings.
Treated with food-grade oils, mango wood is safe for serving dry and semi-dry foods and at the same time repels moisture.
Care instructions:
Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly-do not soak, wipe dry immediately with a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

XYX225

ACACIA 3-TIER TRAY 39,5X17,2X38,5CM

H: 38,5 L: 39,5 W: 17,2 CM

MOQ : 1 | : 6

Acacia is a dense hardwood, making it more resistant to scratches, dents, and cracking compared to softer woods.
It has natural oils that repel moisture. Great for everyday food use. Rich golden to dark warm tones with striking grain patterns. Each piece looks unique. It grows quickly and is sustainably sourced, making it a more environmentally responsible hardwood.
Care instructions: Hand wash only with warm water and mild soap, use a soft sponge or cloth, rinse quickly - do not soak, wipe dry immediatelywith a soft cloth after washing to prevent moisture absorption, store in a cool/dry place, apply food-grade mineral oil or coconut oil every few weeks to maintain shine and prevent drying.

MARBLE & SLATE BUFFET COMBINATIONS

Marble is a natural stone with no synthetic coatings, making it safe for contact with food. It stays cooler than room temperature, which makes it perfect for cheese/deli meats, pastries and cold appetizers.
Care Instructions: Product surface is polished to minimize absorbency, however marble is a porous material, so it can absorb liquids, therefore wipe immediately in case of spills from wine/coffee etc.
Hand wash only with warm water and mild dish soap, use a soft sponge or cloth, dry immediately with a towel to prevent water spots. Avoid contact with acidic, oily, or salty foods. Do not cut directly on the surface, and remove food promptly after use. Store with felt pads or cloth between stacked pieces.

Hand Wash | Food Safe | Professional

The Volcano line is an upgraded version of cast-iron products, featuring a durable exterior coating fired twice and an inner enamel lining.
The inner enamel makes the product rust-proof.
It is suitable for all types of cooktops and ovens up to 220°C. Apply food-grade oil to the rim before use and after cleaning to protect the surface.

VOLCANO CAST-IRON/ENAMEL PANS

Professional | Dishwasher Safe | Food Safe | Durable

Robust and reliable cooling surface made of stainless steel, durable construction, easy cleaning, suitable for various professional applications.
Put in the freezer 6- 8 hours before use and keep your delicacies cool for up to 6 hours.
Make sure to place in freezer on a stable and horizontal position, so as the cooling gel to be distributed and frozen evenly.

INDEX

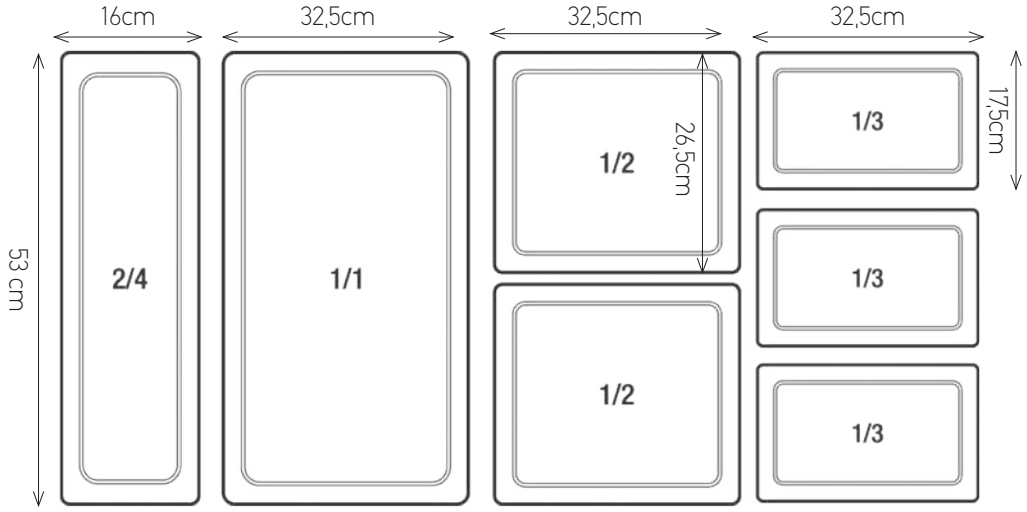

OF BUFFET STANDS COMBINATIONS

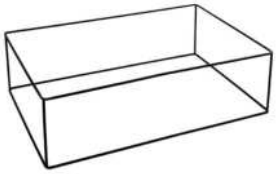

Elevate Every **Surface**

Precision meets versatility. Our curated collection of buffet bases and Gastronorm-compatible trays offers a seamless integration of form and function. Designed for the modern hospitality professional, these modular solutions allow you to build architectural buffet displays that are as durable as they are elegant. Define your space with surfaces that truly perform.

Simple is beautiful, pure, clear, transparent.

Simple is useable, clean, uncluttered, practical.

Simple is convenient, reliable, professional.

Simple is all of these things, and also the reason why things are so rarely simple.

NUDE considers actual and specific needs, then refines them to their essence. The final object is thus both easy to understand and work with.

NUDE believes less equals more, that form works best when it meets function. Where everything is appropriate in the right place at the right time, the right delivery for the right need.

- Special composition and manufacturing process rendering high durability
- Dishwasher safe up to 5,000* cycles
- Refractive index >1,520
- Lightness ~ 99% *
- Distinguished by its superior sound
- Lead-free / Ultra clear crystal glass

* According to ISO IWA-8 "Tableware giftware jewellery luminaries – Glass clarity – Classification and test method"

*NUDE Lead-Free Crystal Glass falls in the category 3 according to the European Directive
69/493/EEC (Crystal Directive) with no intentionally added lead.

LEAD FREE CRYSTAL

Simple is Beautiful

9

Pure Crystal Clarity

Exceptional **clarity** and **craftsmanship** for the modern fine-drinking experience.

STACKABLE ITEMS
In a crowded and highly-active kitchen, what you need is to store more kitchenware in less space. Our stackable products designed just for this need are the perfect solution for you.

FULLY TEMPERED
Full tempering process increases the durability of products which are subject to frequent heat changes during cleaning and use throughout the day. In this process the glass products are heated up to the melting point and then cooled in a controlled manner, which results in the shattering of glass into small and harmless pieces in possible breakages, minimizing the risk of injury.

EXTRA RESISTANT
Our products such as plates and bowls manufactured by spinning process are hardened against sudden heat changes and shocks with special technologies.

FINE RIM
Laser technology applied to rim areas of glasses enables us to enhance drinking experience as well as to extend the life cycle of glasses exposed to intensive use.

VIBRANT COLORS, UNIQUE PATTERNS
We invest in the highest technology to make sure that our products reflect the latest trends. Our decoration lines decorate glassware with wonderful colors and breathtaking patterns to keep you always on trend.

RIM TEMPERED
We know that you want to use our products longer. With the rim tempering process, extensive heating and cooling is applied to the rim, thus minimizing the risk of breaking and cracking while increasing the lifespan of products.

THE FINISHING TOUCH

Any drink, whether it's a cocktail, wine or beer, is best enjoyed in a glass that enhances its taste, smell and appearance . At ONIS , we truly believe the right glass adds value, as it's the first impression of the drink to your guest . We want the right glass to enrich the flavor and aroma of your drink to make it even more enjoyable. But we also want it to stand out. Choosing the right glass makes all the difference and is the final step to make the drinking experience perfect. The final effort that elevated this experience from good to great.

All details count when creating the ultimate drinking experience, where the glass is the finishing touch!
